As per the Ontario Safe Drinking Water Act and Health Protection and Promotion Act, the water facility information and the sample information sections must be filled out prior to processing samples. Sample source codes indicate whether samples are Reportable or Not Reportable under these acts. The laboratory will report all adverse results as per the applicable regulation and source code.

Please check regulation that applies to water sample submitted

Sample Source Codes

- O Reg 170/03
- O Reg 319/08
- O Reg 243/07
- Certificate of Approval Requirement
- Regulated Not Reportable (RNR)
- Required-Upload sample results in DWS/LRMA
- Not Required-Do not upload sample results in DWS/LRMA
- Not Regulated (NR)

- RW = Raw Water** Source water prior to treatment. Water is not for consumption.
- TW = Treated Water** Water taken immediately after treatment at point of entry to the distribution system.
- DW = Distribution Water** Water taken from a distribution point in a system with treatment.
- DW-UT = Untreated Distribution Water** Raw water for consumption. Water taken from a distribution point in a system with no treatment (includes raw water from systems that have qualified for an exemption from treatment and raw water from systems that have a treatment system that is not approved).
- TAP (Standing & Flushed)** Samples taken for the purposes of lead testing under O.Reg. 243/07 (Schools & Daycare)
- RNR = Regulated Not Reportable** Samples taken from a non-standard location under the direction of the system owner for reasons other than assessing water quality against the OSDWA.
- NR = Not Regulated Not Reportable** Samples are not regulated by SDWA

Sample Information

please enter the analysis required below and check off which analysis applies to each sample
